Status of the Claims

Applicant's request for continued examination filed on 8/1/2006 along with amendments to the claims has been approved for entry into the application. Currently claims 15-20, 23-32 and 42-44 are pending for action.

Double Patenting

Claims 5-20,23-32,42-44 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 15-17 and 21-26 of copending Application No. 10/869407. Although the conflicting claims are not identical, they are not patentably distinct from each other because applicant is claiming the same invention.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
